"WOMEN PAY TAXES; THEREFORE WILL VOTE"

Mishawaka Woman's Club Discusses Matters of Import to Women.

"Women ought to vote, because taxation without representation is tyranny, whether the individual who pays the taxes wears trousers or petticoats," said Mrs. W. B. Christophel at the meeting of the literature department of the Mishawaka Woman's club Monday afternoon, when both sides of the suffrage question were discussed. Mrs. Christophel explained that the days when women were compelled to keep silent are past and that today her voice is heard in any field of human endeavor. She affirmed the assertion that woman's place was in the home and that her main task was home making, but that home was no longer confined within the four walls of an individual house. Home is merely the center of her sphere from which her influence should radiate. The speaker compared the government of today with housekeeping on a large scale and said that men cannot keep house alone. She concluded by saying: "The number of women asking for the ballot in this community is larger than the number of men who have ever asked for anything in its entire history. We would not be ready for the ballot tomorrow. Women must first be educated to see what this team work of men and women will do. They must understand why they need it, and then they will want it, and when we all want it we get it, even though we must wait until the men say we may have it."

Mrs. H. Graham spoke on the affirmative side of this question. She is a former "citizen" of Arizona, where the women have the ballot, and told of the many obstacles that were overcome by the women there through their vote.

Mrs. Charles Endlich, who gave a paper on the same question, took the negative side. She said in part: "Woman is the power behind the throne, and she can do more good, help more, if from that point she rules with love and kindness."

Miss Jessie Crosby, in opposing woman's suffrage, gave a fine and comprehensive paper. In addition to affirming the points brought out by her colleague, Miss Crosby presented some points which had some of material weight in the subject under discussion.

The proposition of having a chaunt for Mishawaka, as advocated by H. E. Swetzer of Aurora, Ill., was adopted by the woman's club.

TWO GREAT PICTURES AT CENTURY TONIGHT

Orin Johnson will be featured tonight in a five-reel Triangle play at the Century theater, entitled "The Penitents." This is said to be one of the strongest films ever produced and abounds in exciting situations. Another splendid Triangle-Keystone attraction will also be shown this evening in the nature of "The Hunt," featuring Ford Sterling. This picture embodies a thrilling fox chase, which could hardly be outdone by the real article. Twenty-five good horses and as many good riders, men and women, take part in the production, which is said to be one of the most realistic ever presented. A novel vein of humor mixed with society life above and below stairs is opened up in this picture.

TO INSTALL TWO LARGE VAULTS IN LOCAL BANK

First National Will Introduce Modern System of Safety Deposit Boxes.

The steadily growing business of the First National bank and First Trust & Savings Co. which are under the same management, and in the same building, have compelled the management to install a safety deposit system in connection with its business, and contracts have been let for two mammoth and massive steel vaults. One of these will be placed in the basement of the building in the part at present occupied by Claude Ferrell as a store room. This room will be enlarged considerably by excavating 10 feet under the sidewalk which, when completed, will give a total space of 3517 feet.

The basement vault will be devoted exclusively to safety deposit boxes, while the one upstairs will be used by the bank for its securities. The doors of these vaults will each weigh seven tons, and will be seven inches thick of solid steel, while the bolts and frames will be four inches, making a total thickness of 11 inches.

The upper vault will contain nine large steel chests, two of which will be used for currency and specie reserves. The other chests will be used for the bank's securities and for the storage of silver and other valuables. Both front doors will have three time locks and the vaults will be lined with solid steel, the total weight of which in the two vaults is 26 tons.

The downstairs vault will be fitted with the latest in safety deposit boxes, ranging in size from three and five inches to sizes large enough to accommodate large deposits of valuable goods. All the boxes will be 24 inches deep, and the doors one-half inch thick of solid Bessemer steel. Access to the boxes will be had only by those having the keys.

A marble stairway will be built from the bank lobby to the basement, the intention being to close the outside stairway. The interior of the new room will be handsomely decorated, and a tile floor laid. Elegantly furnished rooms will be provided for the bank for consultation purposes, which privilege will not doubt be largely taken advantage of.

Since Fred N. Smith assumed the management of this strong financial institution, many improvements have been noted and it is generally conceded that this old banking institution is one of which Mishawaka might well feel proud.

MERCHANTS MAKING READY FOR BIG DAY

The power of the dollar is to be emphasized in a manner which will not soon be forgotten in Mishawaka if the plans of the local merchants for Friday do not miscarry. Every merchant in town is going over his stock and everything purchased wholesale at near the dollar mark will be offered patrons regardless of profit. Many of the merchants in fact have determined that articles which cost in excess of one dollar wholesale are to be sold at that figure at retail in order that the general quality of their stock may be made known.

The appointed date is Friday and visitors to the city may expect bargains which will be a revelation to them. Many of the merchants are preparing one dollar bargains which are to be of especial appeal to their country customers and it is expected that the farmers surrounding Mishawaka will be on hand to look over the "Dollar Day" display.

REJECT DEMANDS OF SOFT COAL MINERS

Compromise is Expected to be Effected—Will Get Wage Increase.

International News Service: NEW YORK, Feb. 29.—The demands of the soft coal miners were formerly rejected today at the conference of the joint committee of the representatives of the United Mine Workers of America, and the operators today, according to information secured from an authentic source today when the morning session broke up. The miners were notified to formulate fresh offers upon which a compromise can be based.

The original demands of the miners were three: (1)—10 per cent wage increase on the tonnage basis. (2)—10 per cent increase on day labor, and (3)—Mine run basis of payment.

It had been generally expected that the operators would refuse the miners demands, but that compromise would ultimately be reached upon which the men would get a wage increase.
